Subject: Detrex CleanGredients Statement

To whom it may concern,

CleanGredients is an on-line database of cleaning product ingredients that meet established requirements for superior environmental and human health performance. These "established" requirements were developed by GreenBlue, an independent 501(c) (3) non-profit organization. GreenBlue utilized seed funding from the U.S. EPA's Design for the Environment program (DfE) to build their list. CleanGredients is not a certification program, and the CleanGredient list may only be viewed through a subscription with GreenBlue.

Detrex Hydrochloric Acid products, as shipped from our Ashtabula Ohio facility, are not suitable for use as consumer cleaning agent products. Detrex HCl products have not been evaluated against the CleanGredient requirements.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jim Vence", is written over the word "Sincerely,".

Jim Vence  
Technical Director  
Detrex Chemicals
